New Instructor Training

Since 2000, PRIME For Life has been approved by the Utah Division of Substance Abuse and Mental Health for DUI offenders in Utah. PRIME For Life is also used in youth diversion programs and on college campuses throughout the state. The updated version 8 of PRIME For Life was implemented in Utah in 2005 and reflects best practices such as Motivational Interviewing and the Stages of Change. The program incorporates the latest research on brain chemistry and addiction in a user-friendly instructor manual.

UTAH RESIDENTS ONLY: New Instructor application forms can be obtained by accessing the Utah Division of Substance Abuse and Mental Health website at: www.dsamh.utah.gov. Please contact Holly Watson at 801-538-4233 or hwatson@utah.gov with any questions.

You must be employed by a licensed agency to participate in the New Instructor and/or Continuing Education Conference/Re-Certification Training.

Occasionally, our trainings completely fill up or we may cancel an under-enrolled training; please register early and avoid disappointment.

Please register me for the following

New Instructor Training:

☐ **May 1-4, 2007**

Crystal Inn
1450 Hilton Drive
Saint George, UT 84770

☐ **October 30-November 2, 2007**

The Yarrow
1800 Park Avenue
Park City, UT 84060

Continuing Education for Trained Instructors

Instructors will receive re-certification credit upon completion of the PRIME For Life continuing education conference. Conference sign-in is required. As part of PRI's contract with the state of Utah, there is no fee to attend a continuing education conference. Certified PRIME For Life Utah instructors are required to attend one two-day continuing education event every 24 months to maintain active certification per the Utah Division of Substance Abuse and Mental Health.

The following sessions represent just some of the new offerings for continuing education. Instructors can choose which sessions they would like to attend at the conferences.

Machinery of the Mind—The brain is the machinery that gives us our minds. This new, updated research plenary explores how high-risk choices change the brain and then the mind, reinforcing the attitudes, beliefs, and behaviors common to addiction.

Listen!—Listening with empathy is an important tool to enhance our persuasion mindset. This session will explore different styles of listening and identify which styles fit most closely with the persuasion protocols of PRIME For Life.

Methamphetamine: Skating on Thin Ice—Bring your questions for PRI's drug research analyst, Allan Barger.

Endnote Madness—This session allows participants to familiarize themselves with the endnotes in a fun and interactive way. Several endnotes and their implications for teaching PRIME For Life are explored in detail.

Solutions Sneak Peek!—Get a sneak peek of PRI's new program being developed for clients in treatment.

Let the Numbers do the Talking—Wonder what those pre- and post-tests reveal? Explore the results from the first data analysis of Version 8 and learn more about the impact of PRIME For Life.

Training and Continuing Education Credit

PRI is an Authorized Provider of Continuing Education Units by the International Association of Continuing Education and Training (IACET). Participants in the four-day new instructor training receive 3.2 CEUs (32 contact hours). Participants in the two-day continuing education events may receive up to 1.2 CEUs (12 contact hours) for full attendance. It is the instructor's responsibility to establish whether or not CEUs earned in PRI workshops help fulfill any credentialing requirements of affiliated agencies or organizations.
